### III. Project Plan Summary

**A. Provide a brief description of the project and how the project supported flood response or will support future flood recovery and flood mitigation activities. This is a summary of Tab B - Project Plan.**

Removal of debris and silt from within MVDD drainage system, installation of embankment at breached and sloughed locations along the banks, installation of rock and rip rap that was washed away during flood.

**B. Provide a brief description of the financial assistance need through the Flood Recovery Fund.**

Project has been submitted through FEMA, though at this time it is not know what obligated funding will be available. Construction has started and the District will have a large amount of cost prior to a FEMA determination.

**C. Explain how financial assistance through the Flood Recovery Fund is essential to meet the necessary expenses or serious needs of the applicant related to flood response, flood recovery, and flood mitigation.**

At this time, the District has not assessed for anything more than a typical years' worth of operation and maintenance costs. The cost of the flood damages greatly outweighs the typical assessment value.

**D. Provide details of any additional funds that can be applied to the project.**

Awaiting FEMA determination.

**E. Description of Project Location (i.e. Latitude and Longitude (minimum 6 digits after the decimal), Neighborhood, Subdivision, Geographic Boundaries, Driving Directions, etc.)**

A copy of the construction plans have been attached showing the locations of the improvements within the District.

**IV. Work Schedule**

**A. List the major milestones for this project.**
