

**Session title:**

Improving Iowa's Energy Resiliency

**Session speakers:**

Shelly Peterson-Iowa Economic Development Authority (IEDA)

**Session summary:**

IEDA will discuss innovations in the electric and gas industries and provide energy related tools and resources, with a focus on rural areas of the state and mitigating energy related impacts during disaster events. A series of case studies of recent projects funded through our energy programs will be presented with topics including: battery storage, a mobile emergency power system, energy efficiency resources, renewable natural gas applications, and grid analysis studies. Information on state energy office loan and grant program applications will be presented.
