

State of Iowa
Executive Department

IN THE NAME AND BY THE AUTHORITY OF THE STATE OF IOWA

PROCLAMATION OF DISASTER EMERGENCY

WHEREAS, because of the continued high demand for petroleum products throughout the Midwest, the people of the State of Iowa are faced with extensive challenges to timely access to supplies of several fuel product types; and

WHEREAS, timely access to adequate supplies of heating fuels are necessary to continue to provide residential heating to our citizens, particularly those in rural portions of the state; and

WHEREAS, timely access to adequate supplies of petroleum products are necessary to ensure the movement of supplies, goods, equipment, and fuels; and

WHEREAS, the effects of this fuel access constraint are being felt throughout the State of Iowa; and

WHEREAS, drivers transporting heating fuels are experiencing long wait times at terminals and challenging driving conditions with ice and snow covered roads; and

WHEREAS, long wait times at petroleum product terminals, combined with the need to truck fuels over long distances, make it difficult for transporters to meet demand and comply with state and federal hours-of-service requirements; and

WHEREAS, the limited suspension of certain hours of service regulations for drivers of commercial motor vehicles transporting fuels in our state will increase the amount of these products transported throughout the State of Iowa, thereby reducing the damaging effects of this access constraint; and

WHEREAS, these conditions threaten the peace, health, and safety of the citizens of the State of Iowa and accordingly provide legal justification for the issuance of a Proclamation of a State of Disaster Emergency pursuant to Iowa Code § 29C.6(1).
