

Session Title:

Own it! Grow it! Be it! - Engaging Yourself and those you lead

Speaker(s) & Professional title:

Patty Hendrickson, Certified Speaking Professional

Summary:

This high-energy and interactive program engages attendees from start to finish. We will connect with others and find solutions together. Through experiential activities, short video clips, conversation, relevant data, and stories, participants engage in active learning followed by reflective processes.

There will be a few upbeat visuals, but there will be NO Power Point with boring "bullet points". The content is driven by participants in a unique environment. Lively, poignant and often heartfelt discussion moves and enriches the program. Participants will also have a moment to capture "next steps" and "favorite takeaways."

We will specifically discuss:

- *The Leadership Starter Kit – Onboarding & Everyday Strategies to Build an Engaging Culture
- *Why People Like or Leave Work – Having Conversations the Matter
- *Engagement Reality – Making Work Meaningful
- *The Difference a Servant Leader Makes
- *What's Your Motivation? – Matching People and their Passions to Projects
- *See! Say! Celebrate! – Engagement Model
