

2023 Iowa Homeland Security Conference

October 11-13, 2023

Session Title:

Incorporating Climate Change into Planning Training and Exercises

Speaker(s) & Professional title(s):

Rob Dale, Deputy Emergency Manager Homeland Security Planner

Summary:

This presentation will explain the difference between climate change adaptation and mitigation, and look at the ways the science can be incorporated into all phases of emergency management. Some best practices for including adaptation processes into training will be highlighted, including a brief overview of no-cost training that can be brought to your location or done remotely from FEMA's National Disaster Preparedness Training Center.
